City Council District 6

District 6 had lower than average crime in 2011 and has continued to see lower than average crime in 2012. There was no crime category where district 6 held the most crimes in the City. There has been a decrease in violent crime but there has been a slight increase in property crime and overall crime from 2011 to 2012. The violent crime decrease was driven by having zero aggravated assaults in 2012.

Violent crimes have decreased from 5 offenses in 2011 to 3 offenses in 2012. The 3 offenses represent 7% of all violent crime in the City of Huntington in 2012. Robbery is the most frequent violent offense in the district with two offenses. There were zero aggravated assaults, one forcible rape, and zero murders.

Larceny and all other offenses are the most frequent crimes that occur in district 6. The larceny offenses have seen a small increase from 2011 to 2012, but the “all other offenses” category increased from six offenses in 2011 to twenty-seven in 2012. Looking at what types of incidents these were various and included open door/window calls, deceased individual (natural causes), and recovered property incidents which drove this number up. In fact if the other offenses category would have remained flat, then the district would have had a total offense from 2011 to 2012 that would have been flat instead of a small increase.

Data from this section of the report will come from the AS400 instead of the LG mapping software. The reason for this is because we are no longer have to worry about spacial differences within the City of Huntington. Each software program handles the crime data in different ways, therefore the number may not add up perfectly, and some categories of crimes may not have been included in the report for each district.

Overall crime is down 3.2% city wide from 2011 to 2012 during the second quarter. Categories of crimes seeing a significant decrease in the number of offenses include; motor vehicle theft, drug offenses, and aggravated assault. Some categories of crime have had increases due to more enforcement instead of an actually increase in the number of offenses being committed. An example of these types of crimes is DUI. For over a year a federal grant has provided money for overtime to go after DUI offenses, thus the number of DUI offenses has increased 32.6%. Other crimes such as burglary and fraud – false pretenses/games have just seen legitimate increases. Arrests are also up 4.6% during the same time period. Some categories where arrests have increased include vandalism, DUI, and shoplifting.

There has also been a dramatic decrease in the number of violent offenses driven by a 39% decrease in the number of aggravated assaults. Robberies saw a decrease from 39 offenses to 35 offenses. There were also nine forcible rapes in 2011 and seven in 2012.

to twenty-two offenses in 2012. Property crimes that have seen a decrease include larceny from a vehicle and motor vehicle thefts.
